The essential M&A primer, updated with the latest research and statistics. Mergers, Acquisitions, and Corporate Restructuring, 5th Edition offers an up-to-date explanation of the latest trends and practices in the field. The book's practical orientation and focus on the needs of managers and students make it an ideal introduction for students starting out their business program.

Management: A European Perspective adopts a step-by-step approach based on the key managerial skills — planning, organizing, communicating, and controlling. The book uses a practical, hands-on methodology to focus on the key functions of management. The text is divided into eight main parts, each covering a distinct aspect of management. The book includes numerous case studies and exercises, providing students with practical experience in applying the concepts they learn. This approach helps students learn the key skills necessary for success in the workplace.

Strategic Financial Management Casebook is a collection of case studies that cover a wide range of topics related to strategic financial management. The book is designed to help students develop the analytical and critical thinking skills necessary for success in the field of finance. Each case study is followed by a set of discussion questions and recommended readings, allowing students to explore the issues in depth and gain a deeper understanding of the concepts.

Acquisitions: A Functional Competition Policy for India is a comprehensive guide to the process of acquiring a company. The book covers the legal, financial, and strategic aspects of acquisitions, providing readers with a clear understanding of the process. The book includes numerous case studies and exercises, allowing readers to put the concepts they learn into practice. This approach helps readers develop the skills necessary for success in the field of acquisitions.
